17-18th December, 2019 on 2iE Campus in Ouagadougou, Burkina Faso.

Prototyping Contest

Topic: Climate Change: Toward real solutions for a better resilience of populations to climate change.

The 2iE Institute is organizing a prototyping contest on its campus of Ouagadougou (Burkina Faso), on December 17-18th, 2019.

The prototypes must bring innovative solutions for the adaptation to climate change in the fields of water, energy and agriculture.

The contest concern is addressed to: students, Ph.D students, engineers, innovators, entrepreneurs, and inventors.

The selected candidate will participate to the Roadshow event which consist of:

- An exposition of the prototypes
- An oral presentation to a panel for the contest

The selected candidate from foreign countries will get a support for air plane ticket, lodging and living expenses.

The application form must have a summary description of the prototype with pictures and a short CV.

Deadline of application: November 27th, 2019.
